I. INTRODUCTION

FMCG items are those item which have short life expectancy which are utilized for brief time and are supplanted inside days, week, and month or inside a year. Since FMCG items are supplanted quickly so they are having high market request. They work at a lower edge.

A noteworthy bit of month to month spending plan distributed on these items. The business are continually stretching out and growing new item to improve buyer's involvement. Real players in FMCG enterprises are HUL, ITC, Nestle India, Dabur and P&G.

The major FMCG fragments are-close to home care, sustenance and drink, family care, tobacco and oral care. Nourishment fragment is the main portion in FMCG part. Taste and inclination of clients are changing quickly so the organizations are embracing creative process because of mechanical improvement to match current clients necessity so there is a gigantic open doors in the area. Additionally we try to gain an understanding of why any discrepancies exist and whether they can be explained by the nature of emerging markets as well as the characteristics of the FMCG industry.

Marketing strategies by PatanjaliAyurved Ltd

- Industry sources indicate that Patanjali's market share is likely to be around 5% by end 2015. This is a big success in this category, which had just three players until now. (Credit Suisse).
- Patanjali likely to more than double its revenue to Rs 5,000 crore in FY16 from Rs 2000 crore in FY15. (Reliance securities) Sales and Distribution
- PatanjaliAyurved sells through nearly 4000 retail outlets as of 2015. Patanjali also sells its products online and is planning to open outlets at railway stations and airports. Patanjali

Ayurveda has tied up with Pittie Group and Kishore Biyani's Future Group on 9 October 2015. As per the tie-up with Future Group, all the consumer products of Patanjali will be available for the direct sale in Future Group outlets.

•Patanjali Ayurveda products are also available in modern trade stores including Reliance retail, hyper city and Star Bazaar apart from online channels. Defense organization DRDO entered into licensing agreements with Patanjali Ayurveda for transfer of technology.

IV. THE FACTORS RESPONSIBLE FOR THE GROWTH AND THE DEMANT INCLINATION OF PATANJALI PRODUCTS

Patanjali outperformed in merely half of a decade and became a Brand, demand for the Patanjali products inclined enormously. The success of brand Patanjali happened due to these factors – Opportunist Strategy (Struck the hammer when the iron was red hot) – In a recent case we seen that Patanjali had skimmed the Opportunity and launched their new product Patanjali Atta Noodles when the biggest competitor of leading brand Maggie, was not in the game. It is a lesson to keep your hammer ready for the favorable conditions.

Built a strong fan base and the followers trust – Before Patanjali came into the picture and before launching the full-fledged marketing campaign, a large number of people were trusted him and following Baba Ramdev and the idea that yoga was solutions to many problems.

Yoga Guru adopted “Telling is the new selling!” concept. Instead of focus on selling Patanjali products ;he started working on building relations with them. “People do not buy goods and service. They buy relations, stories, and magic.” – Seth Godin. [3]

Brand should be visible always – From 1993 Himalayan caves of the Hindu pilgrim town of Gangotri to 2011 „anti corruption andolan“ in support of Jan Lokpal Bill Yoga guru have taken out all the buzz and able to create a image visibility for each and every age, gender, cast, religion over the world.

Smart pricing – Patanjali products are cheaper than its peers in the same category. As per the Acharya Balkrishna the input costs is too low because they directly source raw material from the farmers and middlemen are not entertained, and the brand have its own face to promoting brand, so cost for the brand ambassador is negligible as well salaries are also modest. Since the production and promotion cost is less than the other companies are spending, it directly lessens the product cost.

But there are some categories where people may not buy his suggestions and may not switch to Patanjali, if people don't find a satisfactory reason. For such categories Yoga guru has put the price card but not all Patanjali products are cheap but most have 10-20% lesser cost than its rival products. [4]

Awareness strategy through Social Media – Now a days the digital world like Facebook, Twitter, Instagram, blogs and web pages are more effective and prompt to promote and advertise the product. The same product awareness strategy has been adopted by the brand Patanjali to spread the awareness about the Patanjali products to educate and to engage people through the social media over the world. Even Yogaguru has more than 7.4 million likes on Facebook and 623 thousands of followers on twitter as of November 2016. [5] Where he interacts with the followers on Twitter and Facebook by organizing live chats and also informed them about new camps, events, product announcement.

Retail outlets Trust and Faith – Previously, we used to get all the products only in Patanjali Ayurvedic stores located in rare cities, now you can get them from every town today even though you can buy Patanjali products in Big Bazaar as well. If you ever visit to a Patanjali retail outlet, you would not only find herbal medicines but also licensed Ayurvedic Doctor for a free and expertise consultation. This trust and faith are the major reasons why people feel connected to Patanjali.

Variety of products – The major step towards success is its variety of products in each and every segment, brand Patanjali is not only focusing on medicinal products but also focusing on herbal products of personal care, grocery, nutrition and supplements, home care etc.

V. FUTURE PROSPECTUS OF PATANJALI

Rural Push:

Rural market accounts for over 70% of India's 1.21 billion population but contributes only 9% in the FMCG Industry. Thus increasing distribution and support infrastructure in rural areas is a key area where the it needs to focus.

Increment in Research and Development:

FMCG brands would need to concentrate on R&D and advancement as a methods for development. In this period of extraordinary rivalry, organizations that keep on doing great would be the ones that have a culture that elevates utilizing client bits of knowledge to make either the up and coming era of items or now and again, new item classes. Along these lines Patanjali would need to contribute a great deal of capital and exertion into huge innovative work of more up to date item classifications.

Focus on Exports:

Patanjali has to a great extent centered to take into account the residential market. Trades in this manner stay to be a low division of the aggregate deals. It is in this way basic to concentrate on sending out items utilizing Indian operations as sourcing center for the same.

VI. CONCLUSION

There is doubtlessly Patanjali is a problematic drive in the FMCG space and is a solid risk for the occupants, yet Patanjali has its difficulties. A political relationship with any political gathering is a twofold edged sword as a change in political administration implies terrible news. For another, Patanjali does not have a multitude of B-school directors and advertisers, at HUL (albeit one could contend that might be leeway). An indication of that hole was noticeable when, after the dispatch of the atta noodle, the Food Safety and Standards Authority of India said that Patanjali did not have any significant bearing for endorsements. Ramdev figures all endorsements are set up and it might be a scheme to censure him. In the event that he is not kidding, and it appears he is, it's most likely time for Ramdev to get some administration heave in his positions.

The push for high development accompanies challenges. Sourcing of crude material, for example, will be basic to adapt to the volumes. Patanjali has effectively confronted that with gooseberries. To achieve online customers quicker (Grofers and Big Basket presently stock Patanjali items), it must have producing units and distribution centers the nation over. Patanjali's item portfolio is awkward. That's a test that Mudra and McKann Erickson, who have been restricted into handle promoting for Patanjali, should overcome. From a zero-publicizing system, Patanjali has done a U-turn, rising as the third greatest TV publicist in the nation. Additionally, as Naresh Gupta, Managing Partner, Bang in the Middle, a promoting office, calls attention to, for the brand to move into the major class, it needs to speak to the individuals who don't become tied up with Baba's individual conviction framework. He says, "Today Ramdev is additionally a political figure and to union trade with governmental issues has not been simple or fruitful for anybody." But rather whether anybody can break Patanjali's record is yet to be seen. On the off chance that Patanjali is to be contrasted and any player whatsoever, it could be the internet business commercial center Unicorn Flipkart, which began a year after Patanjali, was joined, and hit \$1 billion in gross stock esteem (GMV) two years prior.
