INDUSTRY PROFILE

The Premier Group has an international reputations for quality built over the past 60 years of innovation in the textile industry. Established in 1949, Premier Mills is a member of the Premier Group and a manufacturer and exporter of fine combed cotton yarn, producing over 18 million kilograms a year. With export revenues of over USD 150 million, Premier Mills is a dominant player in the global textile market today, utilizing cutting edge technology, high-grade raw materials and stringent quality control to deliver only the finest products to its customers. The company is headquartered in Coimbatore, India with a dedicated workforce of over 5000 employees.

Premier Mills uses the finest raw cotton chosen from Egypt, USA and India. Premier is also a Supima licensee and its products carry the Oeko-Tex certification.

OUR MISSION

At Premier, we never stop exploring ways to further the quality of our products and providing excellent service to cater to the needs of our customers. State-of-the-art machinery combined with efficient, eco-friendly manufacturing processes and unparalleled technical expertise is the key to our organization's growth and success.

CLIENTELE

Premier Mills caters to a geographically diverse clientele spread across five continents, each of whom has different standards and requirements. We take great pride in our products which are individually tailored to suit the needs of our customers. We export to over 40 countries across the world, including Australia, Brazil, Finland, Germany, Italy, Japan, Portugal, Spain, South Korea, Switzerland, Taiwan and Thailand. Our clientele includes some of the world's finest names in shirting, sheeting and apparel

STRENGTHS OF TEXTILE INDUSTRY

Premier Mills have rich resources of raw materials of textile industry. It is one of the largest producers of cotton in the world and is also rich in resources of fibre like polyester, silk, viscose etc.

A Monthly Double-Blind Peer Reviewed Refereed Open Access International e-Journal - Included in the International Serial Directories Indexed & Listed at: Ulrich's Periodicals Directory ©, U.S.A., Open J-Gage, India as well as in Cabell's Directories of Publishing Opportunities, U.S.A. International Journal of Marketing and Technology http://www.ijmra.us

- Premier Mills is rich in highly trained manpower. The country has a huge advantage due to lower wage rates. Because of low labor rates the manufacturing cost in textile automatically comes down to very reasonable rates.
- Premier Mills is highly competitive in spinning sector and has presence in almost all processes of the value chain.'
- Premier Mills garment industry is very diverse in size, manufacturing facility, type of apparel produced, quantity and quality of output, cost, requirement for fabric etc. It comprises suppliers of ready-made garments for both, domestic or export markets.

WEAKNESS OF PREMIER MILLS

- Premier Mills is highly fragmented in industry structure, and is led by small scale companies. The reservation of production for very small companies that was imposed with the intention to help out small scale companies across the country, led substantial fragmentation that distorted the competitiveness of industry. Smaller companies do not have the fiscal resources to enhance technology or invest in the high-end engineering of processes. Hence they lose in productivity.
- Premier Mills labour laws are relatively unfavorable to the trades and there is an urgent need for labour reforms in India.
- Premier Mills seriously lacks in trade pact memberships, which leads to restricted access to the other major markets.

IMPORT PRODUCTS

The textile manufacturing industry is a small but significant sector of the economy. Premier mills is the India's largest producer and exporter of crossbred wool and enjoys a reputation for producing some of the finest quality wool in the world. It is not surprising then that much of Premier Mills' export success in this sector is with high quality pure wool carpets and carpet yarns, pure wool and woolen blended textiles. The Premier Mills' textile industry originally developed to supply India's domestic needs, but the removal of import tariffs during the last decade had a major import on the sector. Today the textile and carpet sector employs 400 people, an 18.1 percent decline 2001, and a 34.6 percent decline 1996. However, several Indian companies have managed to thrive in this sector, both supplying the Indian domestic market and recognizing the need to find niche export markets for their products to ensure ongoing viability.

Their success has been due to their use of Indian wool to produce high quality textiles, innovative Indian and Pacific-inspired designs, and developing niche products and successfully marketing them internationally. These companies have made considerable investment in machinery, plant personnel and research to produce high quality textiles. Indian-made carpets and textiles are renowned for their strong colors. New Zealanders use bold colors in their homes, and premier mills produce years in a wide color palette for yarn to satisfy this demand. The Premier Mills sunlight means considerable research and investment is made to produce colorfast and fade-resistant textiles. India Trade and Enterprise prepared this information.

MAJOR MARKETS

Textiles from Export are exported to south nations, the all the States, Karnataka and Andhra. South countries are becoming an increasingly important market. Premier Mills is the major destination for premier mills textile exports.

USING MATERIALS

- Premier Mill's wool and woolen blend textiles, both knit and waver for apparel, and both domestic and commercial interior furnishings.
- Premier Mill's textiles using imported raw materials such as cotton and man-made fibers for apparel and interior furnishings, including impregnated text fabrics, artificial fur and manmade filament fabric.
- Safety fabric for specialized use.
- ✤ Industrial textiles such as cloth for crop protection and the automotive industry.
- Shade cloth for horticulture and for domestic use for infants' pushchairs and prams.

The cotton industry is dominated by Cavalier Bremworth and Godfrey Hirst.

TEXTILES

A Monthly Double-Blind Peer Reviewed Refereed Open Access International e-Journal - Included in the International Serial Directories Indexed & Listed at: Ulrich's Periodicals Directory ©, U.S.A., Open J-Gage, India as well as in Cabell's Directories of Publishing Opportunities, U.S.A. International Journal of Marketing and Technology http://www.ijmra.us

Textiles industry maximizes its potential and grows export and domestic sales. Its work includes facilitating ways for individual companies in the textile, Cotton, and cloth sectors to cooperate internationally.

The organization also works with companies and groups to overcome sector-specific challenges and to deal with issues common across the industry, such as creating a sustainable business, keeping skills and attracting new talent, expanding into new international markets, contemplating an international approach to servicing customers, maintaining science skills, and leveraging off the premier brand.

INDUSTRY STRUCTURE

As with the apparel industry, the textile-manufacturing sector was hard hit by PREMIER MIILLS' restructuring during the 1980s and 1990s. Following the reductions in protective tariffs many businesses left the industry. Of those that remain, the majority are small and medium-sized enterprises successfully marketing premier products.

PARTIES INTERESTED IN FINANCIAL STATEMENT

Analysis of financial statement is not only useful to the company but also covers the wide range of different aspirants.

MANAGEMENT

Management is over burdened with the data rather than the Information .the analysis statement gives the information to management in brief and preside manner with this information the company can self evaluate their performance and find out any variances until budgets so these statement in term helpful for solving any deviations in the budgets.

SHARE HOLDER
